**WARNING:** Please be aware that there are many businesses advertising cleaning and repairs at cheap rates and who seem reputable (especially on Facebook!). However, are not doing the job they're paid for and end up costing the tenant more in the long run.

The companies listed here have proven through quality work for our tenants, that they provide a professional and high-quality service. If you have someone else in mind it may be worth a call to us for some feedback first.

If you have any feedback (good or bad) in relation to any services, please do not hesitate to advise us. We really appreciate hearing from your experiences.

Thank you, from the whole team at Jess Jones Real Estate for your valued tenancy.
